

**Description**

Barring gear is electric motor with gear. When barring gear is working, it gears with diesel engine output gear. Start-up is interlocked of barring gear and diesel engine. Diesel engine do not start operation with barring gear. Crankshaft can r- evolve slowly. Then you can find some early warning of breakdown, confirm die- sel engine can work or not. Barring gear is consist of electric motor, gear reducer, workbench, interlock arrangement, turning gear wheel, electric cabinet and rem- ote control joystick.

**Product Model**

CODE	3	4	5
electricit	380V/50Hz	440V/60Hz	690V/60Hz

**Products Features**

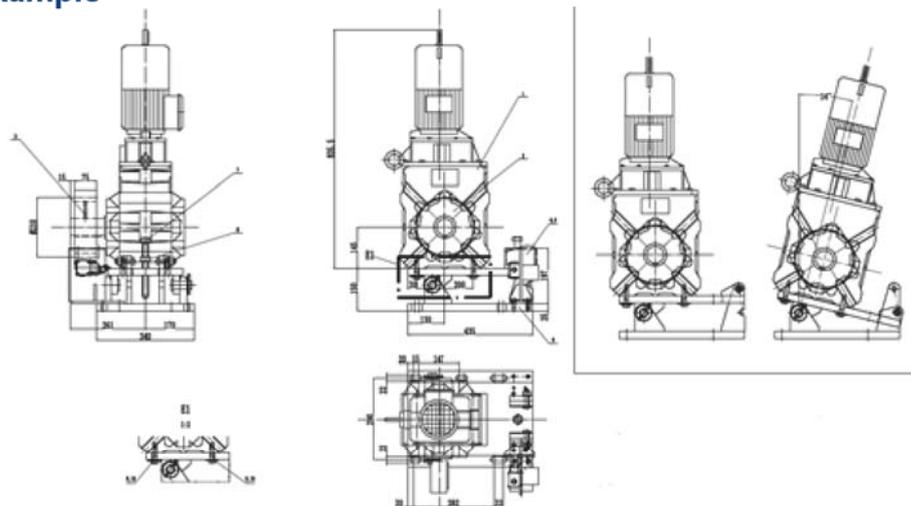

- Turning gear adopts Bauer motor and gear reducer, so we can grantee the quality
- Replace traditional spline connection with hot cold set connection technology, improve performance,
- it can be customized for customers requirements

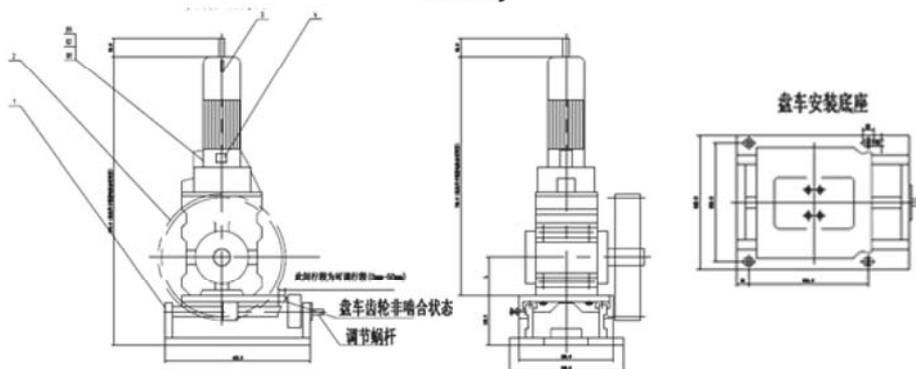

**Technical Parameter**

motor power	0.55kw	0.75kw	0.75kw
output rotational speed	5.3r/min	5.2r/min	6.5r/min
rated torque	800Nm	810Nm	890Nm
rated voltage	380V/50Hz	690V/60Hz	440V/60Hz

**Product Outline Example**

Rotary

Translation type

**Performance**

- Anqing CSSC Diesel Engine Co. Ltd
- Shanxi Diesel Engine Heavy Industry Co.,Ltd.
- Chongqing Push mechanism co., ltd.
- cssc marine power co., ltd.
- CNPC JICAI POWER EQUIPMENT COMPANY
