

TB01

The TB01 Camera for Conference Room with Mounting Bracket is a step forward in conference cameras. It features the camera and a display bracket mount that enables mounting your camera to the top or bottom of most display screens and monitors. TB01 has Ai Face Tracking function, The lens of TB01 with a 110° diagonal field of view that is suitable for most meeting or conference rooms.

No drivers are required to work on Linux, Windows, Android etc., the TB01 is also compatible with virtually all collaborative software platforms. And it connects your computer via USB, which makes it a simple plug-and-play video conference solution.

PRODUCT HIGHLIGHTS:

4K ePTZ Camera

The 110° ultra-wide angle camera of the TB01 is able to capture all meeting participants in its field of view. Additionally, the high pixel count of the TB01 helps to ensure that every expression of people within 16' of the camera is captured and seen.

Ai Face Tracking

TB01 uses the newly developed Ai smart zoom and portrait tracking function. The camera realizes intelligent tracking, with automatic zoom in, zoom out, and pan functions. Keep the subject always in the center of the screen, and communication efficiency is further improved.

Speaker

A speaker bar delivers audio to the far end of the room. Combine that with renowned audio processing technology integrated in the TB01, and you get a workflow with natural conversations taking place between the participants.

Built in 4 Microphone

The Four-element microphone array is software-enhanced and delivers optimal vocal clarity, ensuring everyone's voice is heard.

Software Compatibility

TB01 works with most any video conferencing application or meeting service. Including Skype for business, BlueJeans, Broadsoft, LifeSize Cloud, Vidyo, Slack, Vidyo, WebEx, Join.Me, Microsoft Teams, GoToMeeting, and Zoom etc.
