bms Automatic Blood Separator New Luxury TWiN6920	
Description	
Design	Modern industrial design perfectly combines function with art, exquisite equipment with modern desktop.
Technical parameter	<div><div>1、</div><div>LCD screen:10-inch touch screen, clear operating interface,easy handling</div></div> <div><div>2、</div><div>Suitable for top-top bag and top-bottom bag.</div></div> <div><div>3、</div><div>22 stepper motors:10 sealing head motors,6 press plate motors, 2 RBC shaking motors</div></div> <div><div>4、</div><div>8 weighing scales: 2 primary bag scales,2 buffycoat scales, 2 plasma scales and 2 bottom bag scales</div></div> <div><div>5、</div><div>20 optical sensors: 18 for RBC detection and 2 for Plasma air detection</div></div> <div><div>6、</div><div>10 multi-function sealing head: built-in sensors detect tube position</div></div> <div><div>7、</div><div>Scanning gun: wireless barcode scanner with high resolution to input barcode</div></div> <div><div>●8、</div><div>Unique three-plate-press structure ensures buffycoat separation with high quality</div></div> <div><div>●9、</div><div>Automatic breakers: built-in 6 breakers, 2 main blood bag breakers, 2 SAGM bag breakers,2 bottom bag breakers</div></div> <div><div>●10、</div><div>2 RBC shaking modules with weighing function</div></div> <div><div>●11、</div><div>New liquid level sensors accurate press air out of the plasma</div></div> <div><div>●12、</div><div>Independent dual-separation technology</div></div> <div><div>●13、</div><div>Data management software can put out the whole data</div></div> <div><div>●14、</div><div>Self-diagnosis system with remote monitoring</div></div>
Control system	Intelligent dual control system, independent separation for double bags with multiple tasks processed simultaneously.
Dimension	L610*W550*H525/830(mm)
Rated power supply	90-250V/AC,50/60Hz
Weight	69kg

made in china

Sales partner

High Innovation bms Automatic Blood Separator — New Luxury TWiN6920

Advantages:

- Independent dual-separation technology
- New automatic breaker replaces manual operation
- Unique three-plate-press structure ensures buffycoat separation with high quality
- Data management software can put out the whole data
- Innovative RBC shaking technology
- Self-diagnosis system with remote monitoring

Leading by Innovation

Focus • Innovation • Sustainability

bms Automatic Blood Separator New Luxury TWiN6920

1

Intelligent buffycoat scale

2

SAGM bag press unit

3

SAGM bag breaker

4

Main bag breaker (Innovative patent)

5

Plasma air exhaust unit (Innovative patent)

6

Unique three-plate-press structure for buffycoat

7

Rotatable 10-inch touch screen

8

Hot sealing head

9

Scanning gun

10

Fiber-sensor

11

RBC shaking system

12

Panel sensor

New Luxury TWiN6920 A Perfect solution for blood separation

Advantage 1

Double press operating system

Unique double presses all-in-one units, 2 bags with different specifications or components can be processed with selected softwares, easy operation with improved separation efficiency.

Plasma	Buffy coat	Plasma	Buffy coat
0g	0g	30g	0g
Primary BP	Post cell	Primary BP	Post cell
286g	29g	405g	29g

Left Right

Advantage 2

Three-plate-press structure

Unique design ensure the quality of buffycoat separation.

unique three press structure

Advantage 3

Automatic breaker

Built-in 6 breakers ,2 main blood bag breakers, 2 SAGM bag breakers,2 bottom bag breakers

main bag breaker

Automatic SAGM bag breaker

Automatic bottom bag breaker

Advantage 4

RBC shaking system

2 shaking units with weighing function to fully shake RBC and SAGM

up and down shaking

automatic shaking plate

plasma

automatic shaking plate

Advantage 5

Data processing technology

D-solution for data management can link with multiple devices and system of blood bank

Advantage 6

Self-diagnosis system with remote monitoring

After-sales service platform can monitor the running condition of device, realizing remote supervision on the device faults with timely service
