# OUR MISSION

Dear Educator,

The world is an amazing place that inspires curiosity and motivates learning. At National Geographic Learning, our mission is to bring the world into the classroom and the classroom to life – and we believe that through authentic and compelling content, learners will be amazed, fascinated and motivated to learn English and about the world around them.

In our learning materials, we focus on real content that teaches English effectively and introduces new places, stories, ideas and people from around the globe. By experiencing the world through our materials, students will better be able to understand it. In this century, skills beyond learning a language are just as essential as the language itself. We want learners to develop these 21st century skills and become global citizens that will change the world for the better in the future.

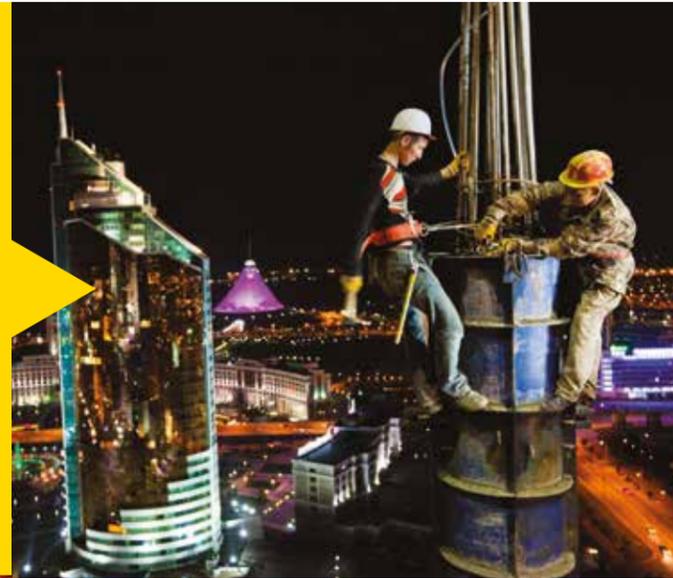

We hope to give students reasons to communicate and the tools to do so effectively. We want each learner to find her or his voice in English, and to use it to successfully navigate this incredible world, in whatever goals she or he may have – work, study or play.

From kindergarten to university and beyond, you will find new and exciting materials throughout this catalog. We teach English and we teach the world – welcome to National Geographic Learning.

# THE POWER OF PEOPLE

One of our goals at National Geographic Learning is to help teachers achieve personal success. We do this by bringing educators together in a variety of ways and providing them with professional development opportunities.

We hold **over 300 National Geographic Learning events, workshops, seminars and trainings in Asia every year.** Educators can get closer to the National Geographic Learning brand and have access to leading experts in the industry, English Language Teaching authors, National Geographic Explorers and speakers from the TED stage.

In addition, thousands of teachers across Asia participate in our webinar series where global, regional and local experts deliver engaging online talks and seminars on relevant topics and themes.

We invite all educators to sign up to receive updates about upcoming National Geographic Learning Asia events, workshops, webinars, teaching resources and more!

“The organization of the event was careful and meticulous. The speakers were well prepared and clear in their message. Thanks for the opportunity to learn from others and to gain wisdom.”

Jin Haifeng

**CEFR PRE-A1 | 3 LEVELS**

A three-level pre-primary course that has basic English language, literacy, numeracy and science at its core. Letters, phonics and numbers are introduced through the Pupil's Book illustrations and pupils have the fun of finding letters and numbers hidden on the pages. This fun and colourful activity-based approach makes sure the whole child is learning and developing along with the language.

- The syllabus develops strong early literacy and numeracy and is based on the United Kingdom Statutory Framework for Early Years Development Standards (EYFS).
- Each lesson presents and practices phonics through the audio material, topic vocabulary and phonics activities.
- Chants and songs in each lesson provide a fun way to absorb the language through a Total Physical Response approach.
- The 'Art and Craft' lessons allow pupils to explore and work with a range of media and materials, providing opportunities to develop motor skills and to share their ideas, thoughts and feelings.
- An online Parent's Booklet explains the course rationale and objectives, and includes parent and child activities so that learning can continue at home and parents can be fully involved with their child's learning.

### Inventions

**Creativity!**  
Creativity changes the world.  
Inventions solve problems.  
Problems that we used to have are gone.  
The wheel and the cell phone  
help to make our world go around.  
Inventions are useful  
every day, in every way.  
Computers, cars, and airplanes  
help to make our world go around.

**CHORUS**  
Inventions help to solve  
problems that we used to have.  
The wheel and the cell phone  
help to make our world go around.  
Inventions are useful  
every day, in every way.  
Computers, cars, and airplanes

118 Unit 7

**GRAMMAR 1**

**Used to for past habits** 114

1. What inventions were used to solve problems?  
2. Which invention do you think is the most important? Why?

**Read, Complete the sentences. Check the true sentences.**

1. In the 1950s, people used to travel by coach.  
2. Before the invention of cars, people used to travel in the city.  
3. Before the invention of the plane, people used to travel by air.  
4. In the 1950s, people used to make calls with a cell phone.  
5. In the 1950s, people used to have hand computers.

**Write, What about you? Write five sentences about what you were young. Write two that aren't true. Use these words to help you.**

carried food, games, home, music, toys, shoes, hair, activities, hobbies, interests, free time activities

**Read your sentences. Work with a partner. Take turns.**

1. Ask and answer. Work with a partner.  
2. What did people use to do for fun before TV?  
3. How did people use to travel before planes?  
4. What did children use to play with before video games?

119 Unit 7

**Song**  
Original songs support the unit theme, model natural rhythm and intonation, and incorporate target vocabulary and grammar.

**Grammar 1**  
Target grammar is presented and practiced in context, with natural examples of real-world language and opportunities for real communication using all four language skills.

**WRITING**

**Fact and Opinion Writing** 116

1. Read. Read this fact and opinion text. Underline facts that support the opinion in the first paragraph.

**A Good Idea**

In my opinion, ability notes are a great invention. They're easy to use. They write a note and stick it on your notebook or on your computer. And they come off easily. I think most people like them because they help you to remember things.

In my opinion, the story of ability notes is interesting. The story is like a mystery. It wasn't always on the shelf. How for use it. But then one day, Arthur Fox found it on the shelf. One day, all his notes fell on the floor. He was so happy! Then he remembered where he had the notes. He used the notes on small pieces of paper. It worked! You could stick the notes to almost any surface, and it was easy to remove them. Now we have a real—and useful—invention!

2. Write. Describe an invention. Explain how to use it and why you like it. Include facts to support your opinion.

3. Share. Share your writing. Work in a group. Listen and take notes.

120 Unit 7

**Writing**  
Students are introduced to a variety of writing types through level-appropriate models and provided opportunities to share their work.

**VOCABULARY 2**

1. Listen and repeat. 117

2. Complete. Then listen and check your answers.

**GRAMMAR 2**

**Used to for general statements** 117

1. Write about these inventions.

2. Listen and write. Write the name of the invention.

3. Read and write. Complete the chart.

4. Discuss the questions. Work in groups of three. Do you think the invention is useful? Why? Would you use the invention? Why?

121 Unit 7

**Vocabulary 2/Grammar 2**  
Additional thematic vocabulary and target grammar are presented with sticker activities and communicative grammar games.

**MISSION**

### Use your imagination and creativity to solve problems.

Think, Pair, Share.

1. Think of one problem you face every day.  
2. Can you solve it with a simple invention?  
3. Write a short story about your invention.  
4. Tell your friends about your invention.  
5. Draw a picture of your invention.

122

**Value/Mission**  
In levels 1-3, 'Think. Pair. Share.' routines help students consider universally-recognized values. In levels 4-6, the routines help students consider the missions of National Geographic Explorers and discuss and share their thoughts with classmates.

**Reading**  
Meaningful, relevant real-world readings, with infographics, 'Weird But True' facts, and graphic organizers, develop language through cross-curricular topics such as science, nature, history, art, culture, music, and sports.

**Project**  
A project ends every unit, providing tangible evidence of student learning, with 'Now I can...' statements to help measure student knowledge.

**READING**

### YOUNG and Creative

1. Listen and read. 123

2. Read and write. Write the name of the invention.

3. Read and write. Complete the chart.

4. Discuss the questions. Work in groups of three. Do you think the invention is useful? Why? Would you use the invention? Why?

**PROJECT**

Design a superpower app.

1. Think of one superpower you would like to have.  
2. Write a short story about your app.  
3. Draw a picture of your app.  
4. Tell your friends about your app.  
5. Draw a picture of your app.

Jennifer Heath, Michele Crawford, Michael Gough

**BEGINNER - ELEMENTARY**

**CEFR A1 - A2 | 6 LEVELS**

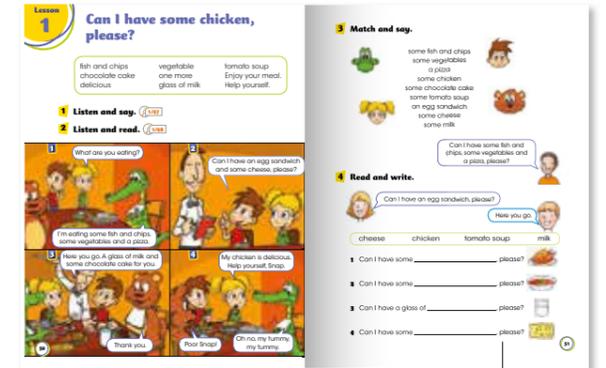

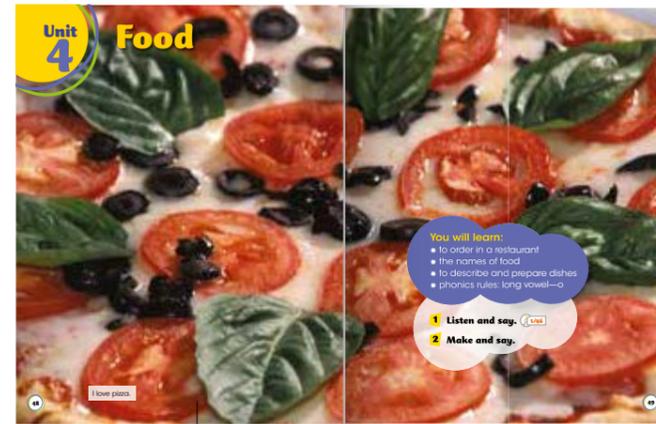

**All Together** is an exciting six-level course that helps primary-age students learn English while discovering the world around them. Powered by National Geographic photographs and videos, All Together weaves the skill-building, grammar, and phonics young learners need into content-rich lessons and projects.

- National Geographic photography and videos motivate learners by bringing the world to the classroom
- Step-by-step language development gives learners essential skills, phonics, and grammar for real-world practice
- Wonderful World projects teach 21st century skills—communication, collaboration, critical thinking, and creativity
- Classroom eBook lessons put class structure and fun-filled activities at the teacher's fingertips
- Teacher's Resource Pack includes an interactive classroom presentation tool and an extensive assessment bank

"Our young learners love the **All Together** series. They are attracted by the characters in the books, amazed by real-life photos, and encouraged to speak more by all these audios, especially the songs. What's more, they don't get bored easily since the course covers a wide range of topics. This course surely helps the students progress in English, step-by-step."

### WHAT MAKES A FAD?

Reading

Look at the photo and scan the article. Who made Leon's new hand? Check (✓) the correct answer.

Leon's dad, a doctor, an engineer

Read the title. What do you think the title means?

Read quickly. Underline the things that 3D printers can make.

How 3D PRINTERS ARE CHANGING LIVES

Leon McCarthy has no fingers on his left hand, so his dad made a new hand on a 3D printer at home. He now has cool hands that are changing his life. Now he can pick up things. He can also throw a ball, and ride a bike—with both hands!

What is a 3D printer?

A 3D printer uses plastic to print 3D objects. It can make hands, fingers, or feet at a cheap price. It can make jewelry, toys, and sunglasses. Now 3D printers are becoming very popular because they can make almost everything! Some designers are even using 3D printers to print food and houses! Doctors are also using 3D printers to teach students design.

How does a 3D printer work?

There are three main steps in 3D printing. First, a person uses software or a scanner to design an object. Then, the printer checks the object's shape and size. Finally, the printer uses plastic to print the object.

### HOW 3D PRINTERS ARE CHANGING LIVES

High-interest content provides motivation for teenagers to think and learn about real issues, and gets them talking in English as early as possible... while not forgetting fun, everyday, relatable topics for teens!

### Student Book

- Real-world content is used as a springboard for introducing the language students need to become effective communicators in English.
- Practice of all four skills and exposure to high-frequency vocabulary over 12 units
- Every unit ends with a Video page, which helps to reinforce and consolidate language from the unit.

### Teacher's Guide

- Full of suggestions and ideas for how to get the most out of class time
- Teacher's Editions feature reduced Student Book pages, content notes, suggestions for additional activities, answer keys and more.

### The Real World

#### Robots and Microrobots

Robert Wood is a National Geographic Explorer. He is an electrical engineer. He makes many different types of robots—from robots that fly to robots that can swim. He is now working on making new robots at Harvard University.

Look at the photo below and the caption. What is a "microrobot"?

It is a small robot. It is a flying robot. It is a robot that looks like a bee.

Look at the article about Robert Wood. Answer the following questions.

1. Wood is also a professor / student.
2. He makes many different types of robots.
3. He is now working on making new robots at Harvard University.
4. He is now working on making new robots at Harvard University.

Think about: What can you think a microrobot can help to do?

The **Real World** sections share recent discoveries, research and experiments, allowing students to look at the unit's theme from a new perspective.

### VIDEO

#### A New Photographer

ABOUT THE VIDEO

A photographer shows us how to take close-up photographs of lions.

BEFORE YOU WATCH

Circle the correct answer. Who do you think took the photo of the lions below?

a. a photographer b. a remote-controlled car c. an animal

WHILE YOU WATCH

Check your answer to the Before You Watch question.

Watch the video again. Complete the information below using the words in the labels.

remote control, camera, buggy

Chris McLennan puts the \_\_\_\_\_ in a small car. This small car is also called a \_\_\_\_\_. McLennan is using a \_\_\_\_\_ to control the car. The car is taking photographs of lions in the wild.

AFTER YOU WATCH

Talk with a partner. Describe the car to a partner. If you had a car like this, what photographs would you take?

# PERSPECTIVES

An Open Mind. A Critical Eye. A Clear Voice.

Daniel Barber, Hugh Dellar, Andrew Walkley, Lewis Lansford, Amanda Jeffries

LOW-INTERMEDIATE – ADVANCED

PRE-A2 – C1 | 4 LEVELS

**Perspectives** teaches learners to think critically and to develop the language skills they need to find their own voice in English. The carefully-guided language lessons, real-world stories, and TED Talks motivate learners to think creatively and communicate effectively.

In Perspectives, learners develop an open mind, a critical eye and a clear voice in English.

- Every unit explores one idea from different perspectives, giving learners opportunities for practicing language as they look at the world in new ways.
- Students learn the critical thinking skills and strategies they need to evaluate new information and develop their own opinions and ideas.
- Students respond to the unit theme and express their own ideas confidently in English.
- Exam-style task types and test-taking strategies prepare students for a range of international exams.

**1** Look at the photos. What words would you use to describe this person?

2 Circle two or three of the words below to describe yourself.

3 Think of two or three words that other people might use to describe you. Do you agree with questions 2 and 3 the same or different? Why?

**4** Match the pairs of words that have a similar meaning. Use your dictionary if necessary. Then think of someone you know who you can describe with each pair of words.

**5** Choose the correct option to complete each sentence.

6 Work in pairs. Take turns describing people in your class, but don't say their names. Can your partner guess who you're talking about?

**7** Work in pairs. Think of a famous person together. Then, working separately, each make a list of words to describe this person. Use your dictionary if necessary. Then compare your lists. Did you use any of the same words? Do you agree with your partner's description? Why?

**8** Work with the same partner. Make one list for your person from Activity 5 using all the words you agree on. Read your list to the class. Can the class guess your person?

Students learn essential critical thinking strategies to evaluate new information and develop their own opinions and ideas.

**BEGINNER – UPPER INTERMEDIATE**

**CEFR A1+ – B2 | 5 LEVELS**

**Impact** helps teenage learners to better understand themselves, each other and the world they live in.

By encouraging self-expression, global citizenship and active participation, Impact motivates students to explore who they are and who they want to be, all while learning English!

- National Geographic Explorers are featured as role models who embody the 21st century skills and values teenagers need to become successful global citizens.
- Cross-curricular topics engage learners with stimulating information about the world, better preparing them for future academic success.
- Student choice activities and projects present learners with options for language practice, allowing teens to become active participants in the learning process.

### VIDEO

**23 Before you watch, discuss in pairs.** Look at this photo. How would you feel if you were near this animal? What would you do?

**24 Write.** The video you're going to watch is called *Face-to-Face with a Leopard Seal*. From the title, predict what will happen when the photographer comes face-to-face with the animal in the photo.

**25 Watch scene 2.1.** While you watch, circle three words that are used in the video to describe the leopard seal.

aggressive   big   nervous   predatory  
caring   disgusting   terrified   useless

**26 After you watch, work in pairs to answer the questions.**

- Where does the leopard seal live?
- How does Paul Nicklen feel when he first gets into the water?
- What does the leopard seal do to Paul to show a threat?
- What does the leopard seal first bring to Paul?
- Why does the leopard seal seem disgusted?
- Why does Paul say that the leopard seal is panicked? What does she start doing at this point?
- What are the misconceptions that Paul had about the animal?

### Make an Impact

**A Perform for your class.**  
Choose a type of performing art to perform for the class.  
Before you perform, explain what you're doing. Give background on the history and popularity of your performing art form. Talk about what you need to know and how to perform.  
Hold a question-and-answer session with the class after your performance.

**B Interview a performer.**  
Think of a performing artist in your community. Prepare ten questions to ask the artist about the type of work he or she does.  
Conduct your interview. Audio record or film it.  
Play your interview for the class.

**C Make a timeline.**  
Choose a type of performing art. Research its history.  
Make a timeline to illustrate the history of this performing art. Use photos to show how it's changed.  
Present your timeline to the class.

Cross-curricular topics and themes engage learners and prepare them for future academic success

### Explore Your Interests

"As an evolutionary biologist, I get to combine both childhood interests into my research: dinosaurs and animation!"  
—Ryan Carney  
National Geographic Explorer, Paleontologist/Evolutionary Biologist

**1. Watch scene 5.2.**

- What are your interests? How have they changed over the years? Is there anything that you were interested in as a child that you are still learning about? What is it?
- The people you read about in this unit, from Leonardo da Vinci to Ryan Carney, made their interests their life's work. How could you turn your own interests into a career? What would you need to do?

Explorers appear throughout each unit to promote 21st century skills.

### Meet the Explorers

**Unit 1** **ARCHEOLOGICAL** **Investigator**  
Rick Brinkley was 15 years old. He invented a test to determine types of cancer. Rick hopes to cure people by using people to pursue their passions. He believes that girls have the power to make a difference. What are you curious about?

**Unit 2** **BIOMEDICAL** **Neurobiologist and Conservationist**  
James Doherty has always loved reptiles. She collected turtles, frogs, and snakes near her home when she was a child. She also volunteered at a zoo. When James was 18, she traveled to India to work on a conservation team. There she realized she wanted to become a herpetologist someone who studies reptiles.

**Unit 3** **BEHAVIORAL** **Ecologist**  
Use Charles Darwin's theory to study how animals behave in groups. With mathematical models, he can take a closer look at bird migrations, insect colonies, and schools of fish. Sam Finkle can use this research to answer questions about our world, such as "How do animals benefit from working in groups?" and "Can humans learn from animal behavior to work better in groups?"

**Unit 4** **ARTS** **Creative Conservationist**  
Do you think about when your clothes come from? Amber Jay does! She weaves, writes, and designs fabrics that help raise awareness for sustainability and conservation. Amber has been connected to the environment and to all living things, ever plants and trees. That's why she wants to reduce her fashion footprint and inspire others to do the same.

**Unit 5** **PLANETARY** **Planetary Biologist**  
Ryan Carney's love is Leonardo da Vinci. Most people know that da Vinci was a painter and an inventor. Did you know that he also designed flying machines? Ryan is a little like his hero. He's also an artist, and studies the evolution of flight. Ryan examines flying dinosaurs and compares them with modern-day birds using a 3D printer.

**Unit 6** **ASTRONOMY** **Planetary Geologist**  
Bethany Ehrenson studies planets and explores our solar system and beyond. She works on the NASA Mars Rover Curiosity mission. Bethany helps Curiosity navigate to collect rocks and minerals on Mars. She hopes we can study these samples to find signs of life on Mars and on other worlds. Do you believe there's life beyond Earth?

**Unit 7** **NATIONAL GEOGRAPHIC** **Photographer**  
Ami Vitale is more than just a photographer; she's a visual storyteller. Ami has visited more than 50 countries to take photographs. She's been to the Arctic, interested with people, people, and traveled through war zones. Ami thinks photos have the power to tell stories and create change. Do you enjoy taking photos? What story would you like to tell?

**Unit 8** **MUSIC** **Artist/Writer/Musician**  
Paul D. Miller aka DJ Spooky. Ami writes, performs under the name DJ Spooky. He uses technology to create unique sounds of sound for his songs. He developed a 3D app to let others do the same. Paul looks at music as information, not just sound. He hopes his musical compositions can raise awareness about environmental and social issues.

The reading texts have been carefully aligned with CEFR levels and the Cambridge First exam, and chosen to relate to students' own areas of interest.

Students' abilities to think, form, express, and justify opinions are developed further in the "Ideas Focus" sections - a core skill for success at First and a constant challenge for teachers to do at this age.

Engaging topics are introduced through stunning photography to appeal to the inquisitive minds of teenagers.

The integrated "Exam Close-up" feature gives students and teachers step-by-step advice and strategies for how best to approach exam tasks so students have an opportunity to put the advice into practice on the page.

**CEFR A1+ – C2 | 6 LEVELS**

**Reach Higher** guides students to learn English, learn about the world, and learn about themselves through authentic content with a global perspective. Primary students develop the academic language skills and content knowledge they need to get an education in English.

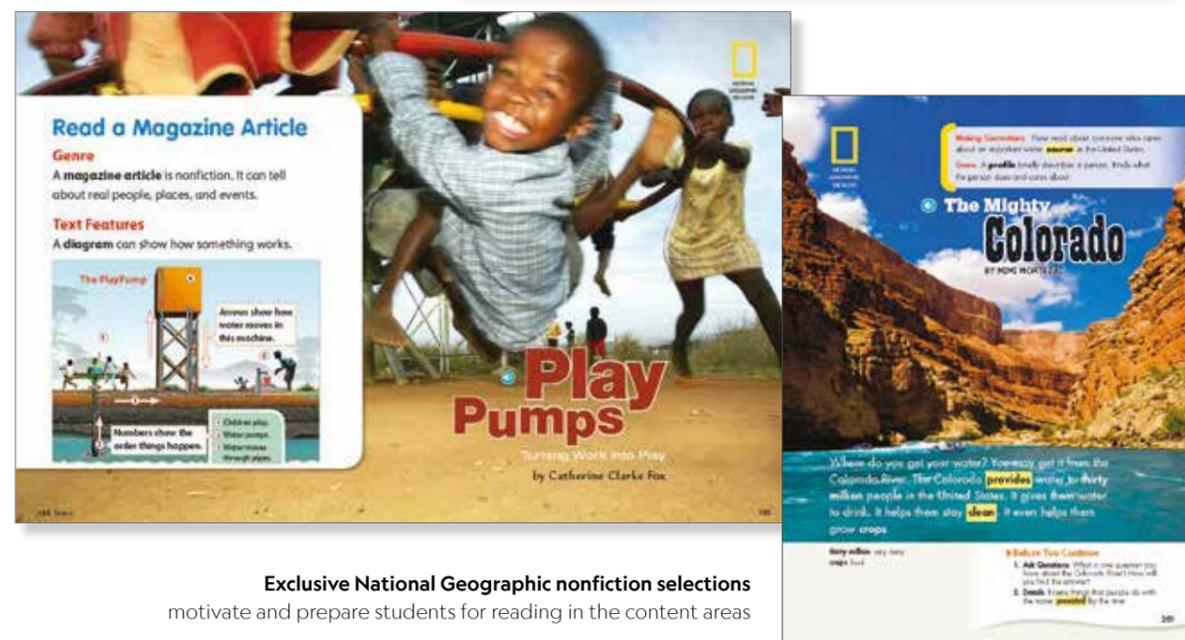

- Cross-curricular, six-level program showcases original fiction, science, and social studies content to develop English literacy skills
- Academic skill-building with phonics support develops students' understanding of different cultures while fostering independent learning
- All-in-one Classroom Presentation Tool provides the resources teachers need to prepare for, address, and assess a comprehensive range of instructional priorities and requirements
- **Read On Your Own phonics** readers use fiction and nonfiction texts to reinforce the phonics and high frequency words in Reach Higher through science and social studies content

High-utility content and academic vocabulary are introduced through text and visual support to make them accessible to learners

Big Question introduces the theme of the unit and encourages students to make personal connections with academic topics

Share What You Know provides opportunities for students to take part in an ongoing conversation and share their experiences with classmates about academic content

Respond and Extend helps students to draw connections between the paired fiction and nonfiction readings and their own experiences

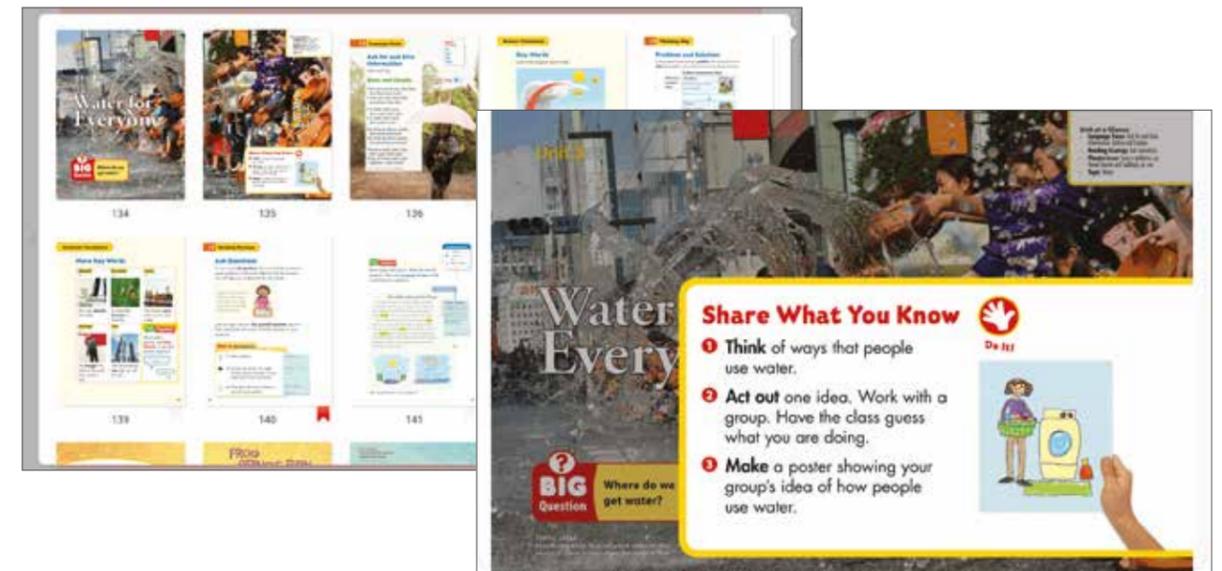

Share Your Ideas provides open-ended projects for students to demonstrate content and language mastery as they respond to the Big Question

TEACHING SUPPORT

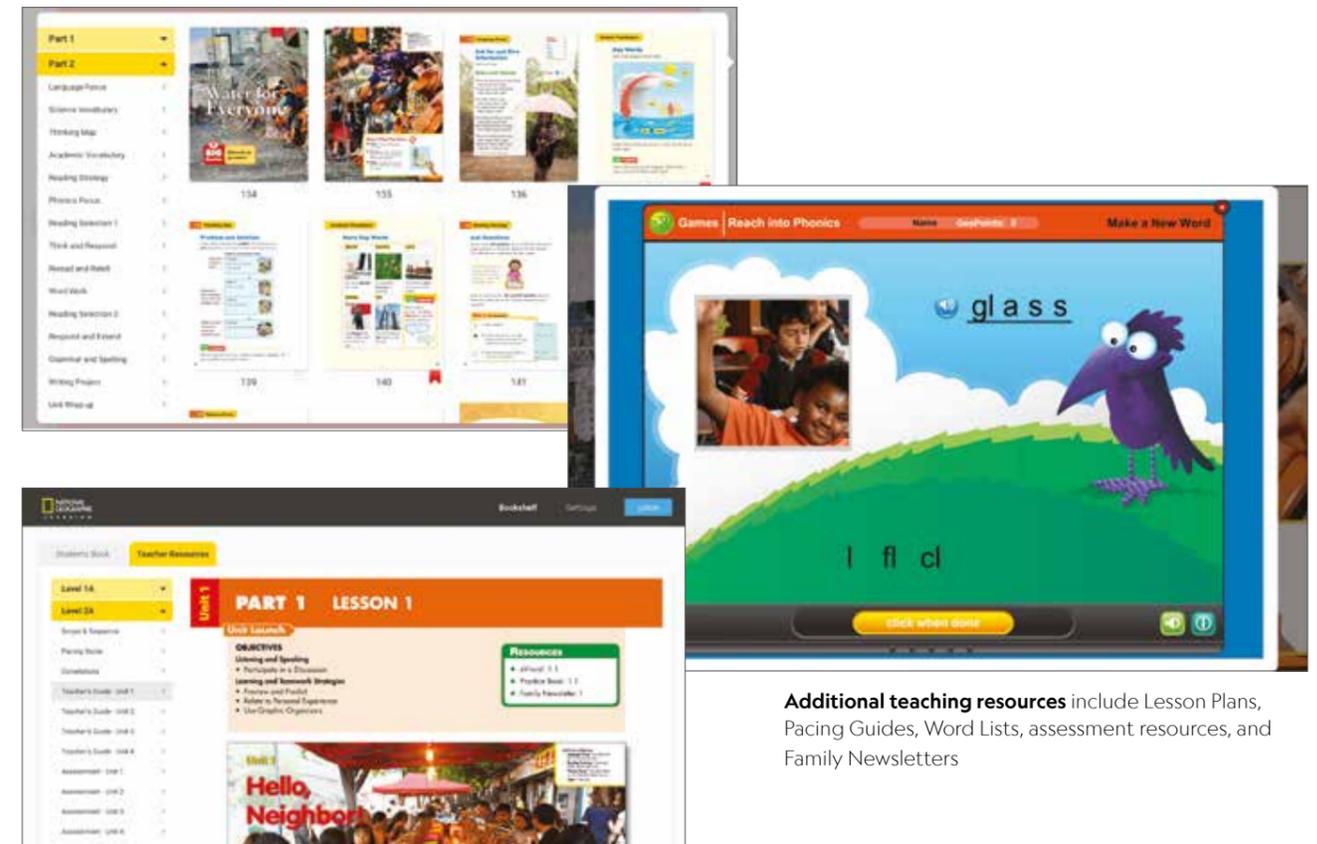

Classroom Presentation Tool for each level provides all-in-one support for teaching

Interactive and animated content helps teachers to present and practice learning goals in a fun and focused way

Classroom Presentation Tool is compatible with a range of common operating systems and devices.

Extra on-page language support and resources include extra class activities and teaching materials, games, and teaching tips

Additional teaching resources include Lesson Plans, Pacing Guides, Word Lists, assessment resources, and Family Newsletters

Reading, writing, and vocabulary instruction helps striving readers move to grade-level proficiency. Increase reading/writing skills and content knowledge through National Geographic content paired with engaging literature, informational texts, and intensive instruction.

- Teach with new explorations and discovery.
- Engage students with National Geographic exclusive content.
- Achieve success with the Common Core State Standards.

Reading Level 1.0–2.5  
Lexile®: BR–550L

**Fundamentals Volume 2**  
Reading Level 2.0–3.5  
Lexile®: 400–650L

### Learn the Fundamentals

Students who begin in Fundamentals volumes 1 and 2 need sequential work in phonemic awareness, phonics, decoding, and spelling as well as foundational work in vocabulary, language, and writing.

#### Student Book

- 9 units cover 18 weeks of instruction.
- Each unit contains four sections: *Language Development, Language and Literacy, Language and Content, and Writing.*
- Visuals and audio lessons guide vocabulary development and language learning.
- Three kinds of readings reinforce vocabulary and language, provide decodable text, and develop strategies for reading informational text.
- The book supports spiraling comprehension skills.

# Exploring Science

Kindergarten

### Built for the Next Generation Science Standards

The Next Generation Science Standards (NGSS) are changing the way science is taught by incorporating a 3-Dimensional approach to instruction. Teachers now need to combine Disciplinary Core Ideas (DCI), Science and Engineering Practices (SEP), and Crosscutting Concepts (CCC) into each lesson to prepare students to master the Performance Expectations.

- In-depth mastery of 100% of the NGSS for grades K-5
- Introduce real-world science practices with National Geographic Explorers, scientists, and photographers
- Balance NGSS content with hands-on investigations, STEM projects, citizen science projects, and interactive digital labs

### National Geographic Explorers and Scientists

Exclusive features and videos show students how scientists use NGSS practices and methods in their real-world research. Explorers inspire students to engage in the NGSS practices by asking questions and solving problems.

Grade 1

Grade 2

### Hands-on STEM Practice

**Investigate** activities guide students through the steps to prepare for the Science and Engineering Practices in the Performance Expectations

**STEM Projects** provide unique, real-world challenges for students to solve using research and engineering practices

**Think Like a Scientist** and **Think Like an Engineer** are Performance Expectation activities where students apply their knowledge and skills in 3-D, hands-on performances

Grade 3

Grade 4

Grade 5

### Interactive Technology

MindTap™ for Exploring Science turns the NGSS into an engaging and interactive student experience, and provides teachers with powerful assessment and analytics to help students master the Performance Expectations.

### Authentic Content

Concise text focuses exclusively on the NGSS; all content is authentic and newly written

### National Geographic Images and Graphics

Vibrant images and National Geographic photography capture student interest

### STEM and Hands-On

Support NGSS content and assess Performance Expectations with extensive hands-on investigations and engineering activities

**Cooling**  
The mountain lion cubs in the picture are walking on ice. Cold temperatures cause liquid water to freeze. When water freezes, it turns into ice. It changes from a liquid to a solid. Water freezing is a change that can happen over and over. Change in temperature causes this pattern.

**SCIENCE in a SNAP**  
**Cooling Water**

- 1 Observe the shape of water in a cup. Use a piece of clay to make a container. Pour water into the clay container. Put the container into a freezer for 4 hours. Predict what will happen to the water.
- 2 Take the ice out of the container and put it in a cup. Observe the shape of the ice in the cup.

? Did your results support your prediction? How is the ice different from the liquid water?

**Wrap It Up!** My Science Notebook

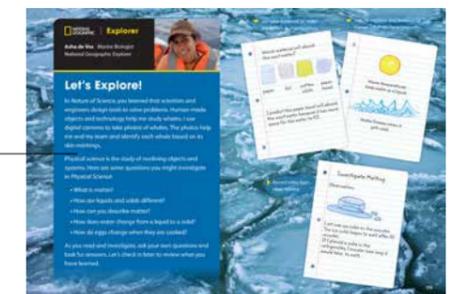

1. How does water change when it is cooled to freezing?
2. Describe what a cup of water would look like if it were halfway frozen.

### Built from the NGSS

Disciplinary Core Ideas and Performance Expectations appear on each page; all content and hands-on activities are based exclusively on the NGSS

### Science Notebooking

Explorers guide students in keeping their own science notebooks to mirror how real scientists work; students record data, ask questions, draw, write, and express thoughts about their learning.

### From the Authors of the Second Edition

Paul Dummett

"We wanted to take learners on a journey, discovering and celebrating the world – its peoples, their customs and ideas – in all its rich diversity. But we needed to 'bring it home,' to make the issues more relatable, so as to maximize the opportunity for learners to express themselves meaningfully in English. That, for me, is the success of this edition."

John Hughes

"In the second edition we've really expanded the range of videos so there are new interviews, documentaries, infographics, and even short feature films. And the videos come from such creative people, so it really inspires you when you are writing the book."

Helen Stephenson

"It's been hugely satisfying to produce the new edition with user feedback from all over the world in mind. This edition gets the balance between the students' needs and the topic and language accessibility just right, I believe. I especially like the renewed focus on practice activities and opportunities for production that bring the focus to the individual student and their own context."

**NEW LIFE STUDENT WEB APP**

The Life Student Web App is an exciting new feature of the second edition, it contains the video and audio for the Student's Book and Workbook, grammar practice activities, interactive reading practice, expanded wordlists, and games.

**Classic presentation, critical thinking, and memorization**

Life presents grammar both inductively and deductively. Sometimes the rule is presented and sometimes students are asked to discover the rule through questioning. This kind of guided discovery requires higher-order thinking and makes learning more memorable. It asks the student to think critically about the grammar and how they will use it to communicate.

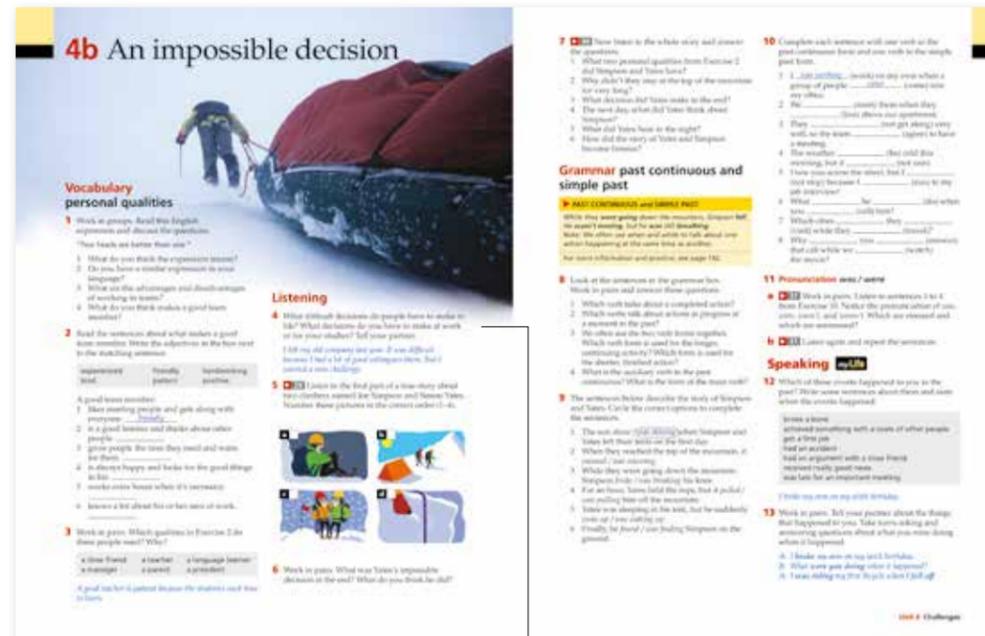

**Comprehension**

A reading section begins with classic comprehension tasks and provides a context to introduce new vocabulary and/or grammar.

**Personalization and Creative Thinking**

This new 'My Life' activity is a personalization task where students practice the grammar in relation to their own lives. The task allows them to create their own questions as well by using the prompts on the page. Students are given the opportunity to take some risks in their learning and use creativity in their communication in English.

**Personalization**

This listening pair work exercise requires some student thinking and preparation time as the task is not mechanical. The language is on-level, but students will need to reflect on their own lives and experiences to appropriately complete the task.

# OUTCOMES

Second Edition

Hugh Dellar, Andrew Walkley

BEGINNER TO ADVANCED

CEFR A1 - C1 | 6 LEVELS

## Real situations • Real language • Real outcomes

The second edition of **Outcomes** is the only course that is consistently focused on helping students achieve the real world communicative outcomes they want and need. This lexically rich course emphasizes students' need to have the conversations in English that they would in their own language.

This new edition contains more contemporary and global content, reflecting English as it is used in the world and is visible via rewritten texts and new National Geographic photos and videos.

There is a strong emphasis on real and natural English usage so students can develop the English language skills necessary for the real world.

### Outcomes Second Edition contains:

- A clear, evenly paced grammar syllabus with strong links to context that is presented and practised through a consistent guided discovery approach
- Inspiring National Geographic videos that provide real global language, while **Conversation Practice** videos provide a model for real, natural output
- An integrated pronunciation syllabus to help students speak and understand authentic English with accuracy and fluency
- An expanded and updated online Vocabulary Builder with pronunciation support and phonetic script to allow students to personalize and engage with vocabulary and language learning

## Using TED Talks to develop 21st century skills

**21st Century Communication** is a four-level series that uses powerful ideas from TED Talks to teach learners to think critically and communicate effectively. Through authentic models of effective communication, students build fluency in the listening and speaking skills needed to achieve academic and personal success.

- TED Talks are used to develop essential 21st century skills, including critical thinking, collaboration, and visual literacy.
- Speaking, pronunciation, and presentation skills, inspired by TED speakers, prepare learners to deliver successful presentations of their own.
- Extended listening based on real-world situations and TED Talks provide listening and note-taking practice.
- Online Workbooks include the entire audio and video program, and automatically graded language practice activities.

- Part 1 in every unit provides a variety of listening inputs including lectures, interviews, podcasts, and classroom discussions.
- Real-world infographics engage students more deeply with the unit theme and promote visual literacy.
- **Put It Together** sections help students connect ideas, synthesize information, and consolidate learning.

### PART 1 What's Your Music-Listening Style?

#### BEFORE YOU LISTEN

**A COMMUNICATE** Work in a small group. Discuss these questions.

1. How important is music in your life?
2. How often do you listen to music?
3. Do you play an instrument? If yes, what do you play?
4. Do you like to sing? If yes, where do you sing?

**B COLLABORATE** You are going to hear an interview. In the interview, people talk about different types of music. Below are a few examples of types of music. Work in a group. Brainstorm more types. Think of as many as you can. Then share your list with the class.

## Great Writing makes Great Writers

The new edition of **Great Writing** provides clear explanations, extensive models of academic writing and practice to help learners write great sentences, paragraphs, and essays. With expanded vocabulary instruction, sentence-level practice, and National Geographic content to spark ideas, students have the tools they need to become confident writers.

Updated in this edition:

- Clearly organized units offer the practice students need to become effective independent writers. Each unit includes:
  - Part 1: Elements of Great Writing** teaches the fundamentals of organized writing, accurate grammar, and precise mechanics
  - Part 2: Building Better Vocabulary** provides practice with carefully-selected, level appropriate academic words
  - Part 3: Building Better Sentences** helps writers develop longer and more complex sentences
  - Part 4: Writing activities** allow students to apply what they have learned by guiding them through writing, editing, and revising
  - Part 5: New Test Prep** section gives a test-taking tip and timed task to prepare for highstakes standardized tests, including IELTS and TOEFL®

### TEST PREP

You should spend about 25 minutes on this task. Write a paragraph with six to ten sentences about the following topic.

#### TIP

Take five minutes to plan before you start writing. First, list out all the ideas you have about the questions below. Then think about which ideas have the best supporting examples or ideas. Use this information to create an outline before you start writing.

*Is being a tour guide a good job? How is it easy or difficult? What kinds of things does a tour guide do every day?*

Give reasons for your answer and include any relevant examples from your knowledge or experience. Remember to use simple present and check for correct subject-verb agreement. Check for correct capitalization and end punctuation. Write at least 150 words.

NEW **Test Prep** section focuses on preparing learners to be successful high-stakes test takers.

# Weaving It Together

## Fourth Edition

Milada Broukal

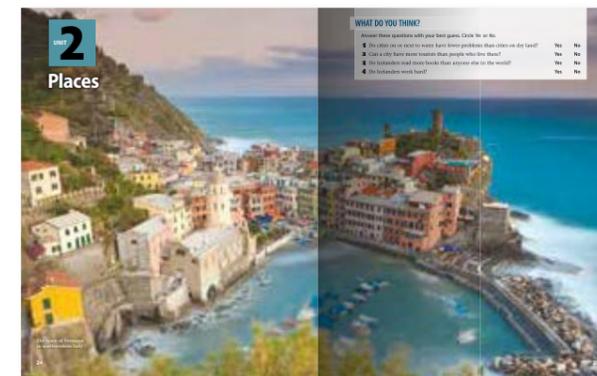

BEGINNING TO HIGH-INTERMEDIATE

CEFR A1/A2 - B2 | 4 LEVELS

Connect high-interest readings with effective writing skills

**Weaving It Together** helps learners build reading and writing skills through relevant readings and carefully structured writing exercises. By balancing these two necessary competencies, learners seamlessly develop both language and academic skills.

- New and updated readings, featuring National Geographic Explorers, motivate students to apply essential reading skills.
- Writing skills are introduced and practiced following every reading, guiding students through the writing process.
- **Discussion** and **Critical Thinking** sections challenge students to increase comprehension while analyzing the reading passages.
- **Reading from Literature** sections in every level expose students to an important reading genre.
- Contextualized vocabulary practice helps students build academic vocabulary.
- **Weaving It Together** sections include timed writing prompts and critical thinking questions, further connecting the unit theme to reading and writing skills.

### Combining Sentences

Some writers like to keep their sentences short. They believe they will make mistakes if they write longer, more difficult sentences. However, longer sentences connect ideas, and this makes it easier for the reader to understand. The most important information from each sentence can be used to create longer and smoother sentences.

A word or word form may change or be omitted, but no ideas are changed or omitted. Remember that there is usually more than one way to combine sentences. Study these sentences. The important information is circled.

There was a **(storm/yesterday)**.  
It was **(strong)**.  
It moved **(quickly)** toward the city.

Now read these longer, smoother sentences:

Yesterday, a strong storm moved quickly toward the city.  
There was a strong storm that moved quickly toward the city yesterday.

### ACTIVITY 22 | Combining sentences

Combine the ideas into one sentence. You may change the word forms, but do not omit any ideas. There may be more than one answer.

- Jim Thorpe won medals.  
The medals were Olympic medals.  
He won them in 1912.  
He was not allowed to keep the medals.

- The weather was cold.  
It was extremely cold yesterday.  
A majority of the flights departed late.  
The flights were from Boston.

EXPANDED **Building Better Sentences** moves from editing to sentence combining for more refined writing.

### BUILDING BETTER SENTENCES

#### ACTIVITY 20 | Editing

Each sentence has two errors. Find and correct them.

- Many politicians in this country believes the law will to change in the near future.
- Cell phones are advanced than they was in the past.
- The normal retirement age for a teacher in the U.K. is 60, some teachers retire when they have 55 years old.
- What was the political and economic effects of the great Wall of China?
- A word that end in -ing can be a noun, a verb, or a adjective.

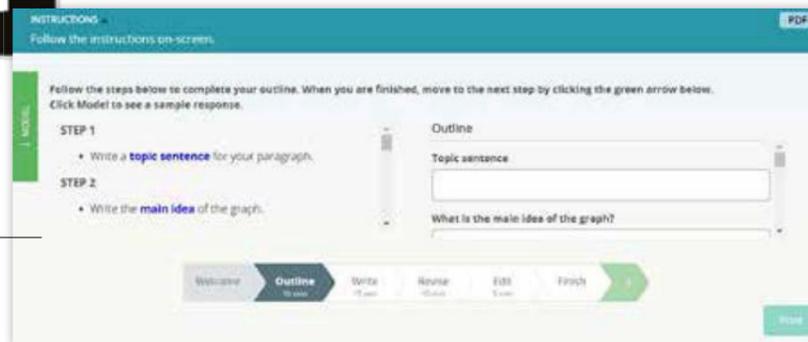

#### ACTIVITY 21 | Writing sentences

Read the pairs of words. Write an original sentence using the words listed.

- (take up/space) His desk takes up a lot of space in his office.
- (ingredient/recipe) \_\_\_\_\_
- (patient/driver) \_\_\_\_\_
- (population/Canada) \_\_\_\_\_

### Online Workbook, powered by MyELT

**LOW INTERMEDIATE TO HIGH-INTERMEDIATE**

**CEFR B1 - C1 | 3 LEVELS**

**Grammar for Great Writing** is a three-book series that focuses on the key grammatical and lexical elements learners need to become more powerful academic writers. Ideal for the grammar component of a writing class, **Grammar for Great Writing** may be used as a companion to the **Great Writing** series or in conjunction with any academic writing series.

- Emphasis on the most common errors found in student writing provides a more effective approach to grammar for writing.
- Corpus-informed vocabulary most frequently associated with the target grammar results in more fluent student writing.
- A wide variety of editing activities refines students' writing and improves accuracy.
- Writing samples in various rhetorical modes provide relevant practice for learners.
