Product Overview 产品简介:

浩瀚 E10 系列储能连接器产品采用多重专利设计。首先 E10 系列可旋转设计让系统安装后的线缆布线更加美观，整体性更好。E10 系列采用了双安全按钮设计，只有同时按下两个释放按钮，才能让公母连接头之间解锁，增强了电气安全性的同时不增加额外的操作动作。高宽温的应用环境，让产品具备了更好的可靠性。

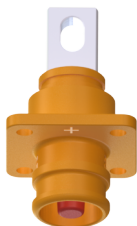

The Galaxy™ E10 Series is a field installable, highly reliable alternative to common compression lugs. Using industry standard crimp, screw, and busbar termination options, thus eliminating the need to purchase special torque tools. NIU's Galaxy™ E10 is an environmentally sealed version of our original Galaxy™ but available in smaller sizes, and features a quick lock and press-to-release design. Galaxy™ is a compact, quick mating, and robust product line. The Galaxy™ E10 high amperage contact technology utilizes high tensile strength properties of a stamped and formed, high conductivity alloy grid to produce low insertion forces while maintaining a large conductive surface area. The V6 version of the Galaxy™ represents the culmination of three years of research and development in laser welding copper based alloys.
